

Public
Health
Genetics &
Genomics
Week

5th Anniversary

How Can I Participate?

Public Health Genetics and Genomics Week seeks to raise awareness and celebrate the field of public health genetics and genomics by bringing together professionals, organizations, and the general public that work within public health genetics. To help us celebrate, here are some ways you can get involved!

1

Share your opinions and resources you have found useful related to each of the daily themes across social media. The daily themes are:

- What is Public Health Genetics and Genomics?
- Who is Involved with Public Health Genetics and Genomics?
- What are Public Health Genetics and Genomics Programs?
- Public Health Screening
- Public Health Genetics and Genomics Resources

2

When participating on social media use the hashtags -

#PHGW

#PublicHealthGenetics

#PublicHealthGenomics

Find resources to help you share information about the week (graphics, logos, sample social media posts) at <https://phgw.org/toolkit>

3

Participate in one of the events being held throughout the week.

Explore the calendar of activities on

phgw.org/events.

Events will be held for professionals (healthcare providers and public health professionals), students, families and individuals with genetics conditions, and the general public!

4

Participate in one of the fun activities (book club, mazes, coloring pages, and much more) available on

phgw.org.
